

School of Occupational Therapy - Bachelor of Occupational Therapy Programme

Within the Bachelor of Occupational Therapy Programme you will need to utilise a range of books, journals articles and online resources. Below is a short list of the books that are recommended you have access to, they will be useful in all 3 years of the programme. Some copies of all of these books are available in the libraries at Otago Polytechnic and Wintec and some are e-books that you can access online via the library.

We know that some students learn best by having the core books always accessible and by reading an actual book rather than online. The books we would suggest you purchase are under the heading Recommended Texts 2020. If you find e books difficult to read it may also be sensible to purchase the actual book. Check that you are buying the most recent version of the book. The University Book Shop Dunedin <https://www.unibooks.co.nz> holds all of these books, they can be purchased online or in person.

Recommended Texts 2020

O'Toole, G. (2016). Communication: Core Interpersonal Skills for Health Professionals 3ed Ed. Australia: Elsevier

Curtin, M. & Egan M. & Adams, J. (2017). *Occupational Therapy for People Experiencing Illness, Injury or Impairment*, (7th ed.). Edinburgh, UK: Elsevier. ISBN: 9780702054464
