2021
Programme Guide
Still the same great study experience!

The New Zealand Government is making changes to the polytechnic sector, bringing all of the current providers together into one institution with the working title New Zealand Institute of Skills and Technology (NZIST). Otago Polytechnic is a subsidiary company of NZIST until the end of 2022, when we become one of its branches.

**What does this mean for you?**

What won’t change is your study experience with us. You’ll still learn from world-class teachers, and you’ll continue to graduate with an Otago Polytechnic qualification. You’ll also have the same access to all the amazing student support, facilities, resources and opportunities Otago Polytechnic is renowned for!

Could I study for free?

If you’re studying at certificate or diploma level in one of the Government’s targeted areas, then the answer may be yes!

In the wake of Covid-19, the Government has introduced a Targeted Training and Apprenticeship Fund (TTAF) to fund study in areas where industry demand from employers is strong or growing.

These include:
- Farming, horticulture and viticulture
- Construction and engineering (electrical, mechanical and civil)
- Community support, counselling and mental health and addiction support
- Road transport (vehicle operations).

This initiative is in addition to the existing Fees Free scheme.
For more details on these initiatives visit op.ac.nz/students/funding
Why choose Otago Polytechnic?

1st in NZ for course completions

If you study with us, you have an excellent chance of success. We have the best course completion rate in our sector, according to the Tertiary Education Commission.

100% willingness-to-recommend score*

Independent researchers interviewed 58 community and industry stakeholders about Otago Polytechnic. Their responses resulted in a 100% willingness-to-recommend score – almost unheard of in any sector.

150+ programmes of study

We have 150+ programmes of study, and more than 40 of these are at bachelor’s degree level or higher – we even offer a doctorate.

20+ dedicated support staff

If you are struggling – inside or outside class – our experts can help. We offer career advice, learning support, counselling, disability and wellbeing support, Māori and Pasifika support – and more!

1:16 teacher-to-student ratio

There’s no chance you’ll be overlooked in our small, focused classes! Our average teacher-to-student ratio is 1:16 – meaning you’ll be well-supported academically.

20 Teaching Excellence Awards

We have some of New Zealand’s finest tertiary teachers. Over the past 11 years, 20 of our teachers have been awarded prestigious national Tertiary Teaching Excellence Awards.

Independent researchers interviewed 58 community and industry stakeholders about Otago Polytechnic. Their responses resulted in a 100% willingness-to-recommend score – almost unheard of in any sector.
Our strong relationships with international institutions provide opportunities to enrich your student experience, helping prepare you for an increasingly connected global workforce.

From informal friendships to formalised agreements and international accords, these partnerships help us ensure our programmes are internationally recognised and relevant, and support our teachers as globally-informed, expert practitioners in their fields.

When international travel restrictions permit, degree and diploma students can choose to complete part of their study programme abroad with one of our 80+ partner institutions. Our Study Abroad learners gain valuable connections in their chosen fields, while experiencing life and culture in other countries.

Each campus has its own distinctive flavour. Our Dunedin and Central Otago campuses cater to both domestic and international students, while our Auckland campus is dedicated to international students.

Te Pā Tauira, our Student Village, is a home-away-from-home for our students, providing comfortable, stylish and secure accommodation in the heart of our Dunedin Campus.

Who better understands what it’s like to study here than a current student? Our student ambassadors can be found at open days and events, sharing their experiences with prospective students and their families.

Our Learner Capability Framework, I am capable, identifies 25 personal attributes employers value irrespective of the industry they’re in. We’ll help you develop them – and give you the transcript to prove it.

Dunedin is a vibrant student city that blends the best of both worlds. It’s energetic, artistic and innovative – and a safe, welcoming place to live.

As New Zealand’s incubator for IT, entrepreneurship and design, the city is at the front of global trends. It also boasts spectacular scenery, sandy beaches and some of the world’s rarest wildlife.

Our Dunedin campus is centred in the heart of the student district, an easy walk from the central city and with a great variety of amenities and facilities on-site or nearby.

Image: DunedinNZ
Our Central campus in Cromwell offers a unique student experience in one of the most beautiful regions of New Zealand.

Our programmes are tailored to the needs of local industry, and our students work on real projects in real workplaces thanks to our strong community and business partnerships.

The adventure sport destinations of Queenstown and Wanaka are both just half an hour’s drive from Cromwell, meaning recreational opportunities are endless.

What can you study at Central?

> Apiculture
> Avalanche Risk Management
> Bicycle Mechanics
> Brewing
> Carpentry
> Cookery
> English
> Farming
> Horticulture
> Midwifery
> Outdoor and Adventure Education
> Snowsports
> Sports Turf Management
> Stonemasonry

Note: Snowsports, Avalanche Risk Management, and Outdoor and Adventure Education programmes are delivered in Wanaka.

Our Auckland International Campus caters especially for international students, offering quality education in the heart of New Zealand’s biggest city.

Our team is made up of top-quality educators and support staff who come from a range of cultural backgrounds. Classes are taught in English but there are staff available who speak other languages.

Auckland has a diverse, multi-cultural population and world-class amenities. It is a fast-growing business hub where all the action happens!

Auckland International Campus is a partnership with Future Skills Academy.

What can you study in Auckland?

> Construction
> English Language
> Information Technology
> Management
Exploring your options

Our friendly staff can help you consider your study and career goals. We also host regular events throughout the year so you can see our facilities, meet our staff and students, and ask questions.

Liaison Advisors

Emilie and Tama are our Liaison Advisors who can help answer your questions about Otago Polytechnic and help you find the study option that’s right for you. They visit secondary schools in the first and third terms of each year and can be found at career expos around the country. You can also contact them directly – they are always happy to help!

emilie.crossley@op.ac.nz

tama.walker@op.ac.nz

Open days

Dunedin

Otago Polytechnic and the University of Otago usually hold their annual Tertiary Open Day in the first half of each year.
This is a great opportunity to tour our campus and facilities, and attend talks from our teachers from different academic areas. There are also fun, interactive sessions throughout the day, so come along and find out why Dunedin is such a great place to study!

Central

We hold open days at our Central campus in January and November each year, so you can check out the facilities, meet our teaching staff and get a feel for what studying in Central Otago is like.

Webinars and online events

Explore our online events and webinars to find out more about learning with us – without leaving home!
This is a great way to discover more about your student experience, including teachers, facilities and the support services we offer – no matter your location.
Keep an eye on our events page for upcoming live webinars.
op.ac.nz/news-and-events

Taster days

Get a taste of what it’s like to be a student on campus by attending one of our taster days throughout the year.
Also, we can often arrange for you to sit in on a class and meet with a lecturer, providing an opportunity to find out more about your specific area of interest.

Campus tours

We operate tours of the Dunedin, Central Otago and Auckland campuses on request.
You’ll enjoy a warm welcome, followed by a walk around campus, a visit to our schools and colleges, classrooms and some of our impressive facilities. The tour takes approximately one hour.
Contact us for more information:
Dunedin liaison@op.ac.nz
Central central@op.ac.nz

Scholarships

Studying can be expensive, and we don’t want that to be a barrier to your learning.
If you’re thinking of studying with us, we have a variety of scholarships that may be able to assist you.
We have general scholarships open to all students, and others especially for those undertaking specific programmes of study. There are options for both prospective learners and current learners.
op.ac.nz/scholarships

Career support

This service is available to both prospective and current students.
We offer expert guidance and a friendly ear to help you make informed career decisions based on your own personal values, goals and interests.
We can discuss career options, a possible programme of study, job applications or interviews, or any other career-related topic.
careers@op.ac.nz
Student Support

We have a dedicated team of staff to support you before, during and after your studies, ensuring you get the most out of your time as a student!

Māori support
Please see page 8 for more information about Te Punaka Ōwheo, our Māori Centre, and related services for Māori students.

Wellbeing and Disability support
Our Wellbeing and Disability Advisors are available to provide you with a professional, timely and ethical service. With their support, you will be able to identify what is affecting you and what you need to do to stay on track. Our advisors can help you set goals and learn about the community services you can access. They also provide disability support tailored to your individual needs. This may include classroom note takers, readers/writers, tutors, equipment, adaptive technology, orientation and liaison with lecturing staff and community agencies.

Pasifika support
Litea Ikahihifo provides support to our Pasifika students and holds regular fono throughout the year. If you identify as being of Pacific Island descent, Litea will contact you. She is based in Dunedin but can provide support and advice via phone, video or email to students based elsewhere.

Learning Advisors
Receive learning support once you’re enrolled in your programme. Our services include:
- one-on-one appointments
- facilitated study groups and tutorials
- English grammar and literacy development
- hand-outs and study cards
- online information and support for distance students.

Counselling services
Receive confidential help with any issues you may have in your personal life or studies. Online and phone counselling is also available.

Student Success
We have a dedicated team of staff to support you before, during and after your studies, ensuring you get the most out of your time as a student!

Contact Student Success
0800 762 786
studentsuccess@op.ac.nz
op.ac.nz/support

More support
Otago Polytechnic’s student support services also include:

Chaplain
Find out about places of worship or talk to someone who can understand your spiritual needs.

Student Health Centre
Access the same services offered by your family doctor, as well as health education, health screening tests, nutrition advice, vaccinations and some minor surgery options.
Te Punaka Ōwheo

Otago Polytechnic’s Māori Centre

We help Māori students flourish

Our friendly community of Māori support staff are here to assist you. Gain the academic, cultural and social support you need, and access a range of services, resources and facilities.

Scholarships

Otago Polytechnic offers a range of scholarships for Māori students.

The following scholarships provide you with financial support so you can focus on your learning:

> Rūnaka Scholarships
> Mana Pounamu Scholarship
> Mataawaka Scholarship
> Māori Education Trust.

[link to scholarships]

Our facilities

Te Punaka Ōwheo includes Poho – the Māori student common room – equipped with computers, internet and a kitchen. There is kai available for breakfast.

We also cook lunches for Māori students every Wednesday at midday (during term time), so you can pop in and get to know our staff and your fellow Māori students.

Poho is automatically unlocked from 7.30am to 5.00pm on weekdays but Māori students can access the space from 7.00am to 10.00pm with their Otago Polytechnic ID Cards.
OPSA is an independent organisation run by students for students. It can represent and promote your views and interests, safeguard your welfare and ensure you have a great study experience.

Events
OPSA provides access to social events, entertainment and recreation opportunities during the year, many with free entry.

The annual Orientation programme will help you become familiar with Otago Polytechnic, meet other students, hear live music and participate in barbecues, quizzes, entertainment, competitions, food festivals, sports and events.

Services
OPSA manages a range of student services and facilities, including:
- Unipol Sport and Recreation Centre
  [otago.ac.nz/recreation]
- Student Job Search
- financial and personal advice
- photocopying
- binding and laminating
- student ID and discount cards
- discounted phone cards.

Please note that some services are limited to Dunedin students.

Clubs and Societies
(Dunedin only)
Polytechnic students (with current ID) are welcome to join clubs, attend events and use the recreational facilities on offer at OUSA's Clubs and Societies Building in Albany Street.
[ousa.org.nz/recreation]

Other facilities and services

Libraries
Use library facilities on both Dunedin and Central campuses for research and access to photocopying and printing services.

IT support
Seek computer advice to hook up to our wireless network, access and store your work on the network drives and download free course material.

Polykids Childcare Centre
Access quality early childhood education and care.
[op.ac.nz/polykids]

Student insurance
We offer a tailored insurance programme for domestic students through insurancesafeNZ.
[op.ac.nz/studentinsurance]
Accommodation
Where you live makes a big difference to your student experience. Fortunately, there are loads of great options.

Te Pā Tauira
Otago Polytechnic Student Village

(Dunedin only)
Otago Polytechnic’s on-campus Student Village offers you a comfortable and stylish home-away-from-home.

This 231-bed furnished residential village is purpose-built for students in a prime location. You’ll enjoy a short walk to class and still be just minutes away from the city centre, libraries, gyms and sports grounds. You’ll also meet lots of new people and become part of a great student community.

Te Pā Tauira provides:
> a unique residential life programme, recreational facilities and organised events
> a safe and secure environment with swipe cards and staff on-site 24/7
> an alcohol-free floor
> free WiFi
> inclusive internet and power – so no surprise bills
> catering packages
> the opportunity to request to room share with friends, or a single gender/mixed gender apartment
> optional study tutorials to help you stay on top of your coursework.

Central Campus Accommodation

Our 35-bed accommodation complex at our Central campus offers students the best in modern living. It features seven fully furnished houses, each with five single bedrooms. All of the houses are double glazed and insulated.

Visit central.op.ac.nz/students/living-in-central
For more information email barbara.emmitt@op.ac.nz
Salmond College
(Dunedin only)
Live in warm, modern facilities, have your meals cooked for you, take part in a variety of social events and make new friends!

The accommodation application process for Salmond College is managed by the University of Otago on behalf of Otago Polytechnic. You will need to register as an Otago Polytechnic applicant and you will then be able to log in and check your application progress.

Applications
Applications must be submitted online via the University of Otago Accommodation Office webpage otago.ac.nz/about/accommodation
salmondcollege.ac.nz

Private accommodation
Perhaps you’d prefer to live independently, flatting with others or renting a studio room. Some great places to start your search are:

Dunedin
studentflat.co.nz
studentflats.yolasite.com
Dunedin and Central Otago
trademe.co.nz/property

For accommodation advice visit ops持.org.nz/accommodation
or email studentsuccess@op.ac.nz
Youth Guarantee Scheme

If you’re between 16 and 19 years of age and don’t already hold a Level 3 qualification, this is an option that may suit you.

This pathway enables you to take part in hands-on certificate programmes and pay no fees*.

You will gain valuable practical experience while also improving your foundation literacy and numeracy – crucial skills on the path to further study, training or employment.

**Study options include:**
> Animal Care
> Automotive Engineering
> Computing
> Early Childhood Education and Care
> Foundation Skills
> Hairdressing (Salon Support)
> Mechanical Engineering
> Study and Career Preparation.

*Conditions apply – see our website for more information.

op.ac.nz/ygs
Vocational Pathways

For most jobs, you will need to undertake further tertiary learning or workplace training after you finish secondary school. Vocational Pathways can help you plan what to study to meet your goals. By achieving success in a particular pathway, you know that you have the skills that employers in that industry are looking for.

At Otago Polytechnic, we organise our programmes into career pathways (e.g. Creative) which align well with the Vocational Pathways. Each career pathway in this guide has the corresponding Vocational Pathway shown with a symbol that looks like this:

Otago Secondary Tertiary College (OSTC)

If you’re in Year 11-13 and attending high school in Otago then you could get a head-start on tertiary learning by studying one day a week at Otago Polytechnic.

This could be a great option if you:
> are looking for something hands-on, practical and relevant to an industry or profession
> want a qualification that gives you the skills and strengths employers are looking for
> want to obtain NCEA credits for real-world career training.

Study options include:
> Automotive
> Bicycle Mechanics
> Building and Construction
> Cookery
> Engineering
> Hairdressing
> Hospitality
> Manaaki Tauira
> Sport, Exercise and Health.

If you would like to know more, please contact your school’s careers advisor.

op.ac.nz/ostc
Employers want graduates with well-developed transferable skills – capabilities that are useful across all jobs and industries.

We can help you develop these – and prove that you have them – through a process called **i am capable**.

### Proving your capability
You’ll have the opportunity to create an Employability Profile to provide to employers, essentially a ready-made CV of transferable skills that complement your academic transcript.

And, it works the other way around too – employers can access **i am capable** and contact you directly if your capabilities match what they’re looking for!

### Getting started
**i am capable** is embedded in all Otago Polytechnic programmes. When you begin your studies, your teacher will guide you through the whole process.

We also have a full-time **i am capable** advisor who will be happy to chat to you about the process or your individual situation at any time.
Learner capabilities

Here are some of the learner capabilities we can support you to develop, dependent on your area of study.

- Communicates effectively in writing
- Communicates effectively verbally
- Communicates effectively visually
- Displays effective interpersonal behaviour
- Displays cultural competence
- Displays bi-cultural proficiency in a New Zealand context
- Works independently
- Works in teams
- Reflects on performance and applies personal learning
- Acts responsibly
- Practises health and safety
- Demonstrates digital competence
- Organises effectively
- Demonstrates resilience
- Thinks creatively
- Displays leadership
- Inspires others
- Practises sustainably
- Practises ethically
- Thinks critically
- Solves problems
- Communicates bilingually
- Displays work life balance
- Performs community service.

Find out more about i am capable and the skills employers want at op.ac.nz/i-am-capable
Foundation Learning

Whatever your background, you can start here!

Foundation Learning is ideal preparation for further study or employment. You’ll gain a hands-on taste of tertiary study, improve your learning skills and develop the knowledge you need to move into a higher-level qualification or workplace.

“I would really recommend this programme to anyone who struggled at school. It’s not the same here – it’s completely different.”

Danni Cousins
New Zealand Certificate in Study and Career Preparation (Level 3)

Benefits

> Enjoy small classes and a highly supportive environment
> Learn from approachable teachers who are interested in your individual goals
> Develop skills in numeracy, writing, studying and computing
> Gain employability skills such as CV and interview preparation, and how to write a cover letter.

Are you a change-maker?

At Otago Polytechnic, we believe that our people make a better world – and that’s why we’ve developed a qualification for tomorrow’s big thinkers.

A New Zealand-first, this degree is for learners of any age who are passionate about making a difference to an industry, organisation or community. In the past, leading and affecting change has often conflicted with the social and economic pressures of getting a job, causing tension between study, employment and lifestyle choices. But not anymore.

Our innovative degree provides an environment for nurturing and launching big ideas, and a platform for those who want to create meaningful and positive change.

For full entry requirements, visit [op.ac.nz/leadershipforchange](http://op.ac.nz/leadershipforchange)

“I love that while I’m studying for a qualification and learning highly applicable skills, I also get to contribute to a meaningful, real project in the wider community.”

Finn Boyle
Bachelor of Leadership for Change
Bachelor of Culinary Arts
“It’s such a worthwhile programme – all the lecturers were awesome and the learning style was fantastic. Otago Polytechnic puts a lot of thought into its programmes to make sure you get the best possible start to your career.”

Danielle Taripo
Bachelor of Social Services

If you don’t meet the academic entry requirements for one of our health-related diploma or degree programmes, this bridging certificate will prepare you for more advanced study. This programme is suitable for both school-leavers and mature students preparing for a change in career. Please note that successful completion of this bridging certificate does not automatically guarantee entry to our higher-level health programmes.

For full entry requirements, visit [op.ac.nz/healthbridging](http://op.ac.nz/healthbridging)

For more career information and up-to-date salaries, visit [careers.govt.nz](http://careers.govt.nz)

Don’t have the academic requirements you need to enter one of our diploma- or degree-level healthcare programmes? These provide the perfect solution for enabling you to gain the academic criteria you need. Our healthcare programmes may also have non-academic entry requirements, so you may need to plan ahead.

February start (Level 3)
- Open entry.
- IELTS – 5.0 (no band score lower than 5.0), from one test issued in the last two years OR equivalent.

July start (Level 4)
- New Zealand Certificate in Study and Career Preparation (Level 3) OR equivalent.
- IELTS – 5.5 (no band score lower than 5.0), from one test issued in the last two years OR equivalent.
- In exceptional circumstances, special entry may be considered where an applicant can supply evidence of their ability to succeed in the programme.

“This degree has really helped me to get out of my comfort zone, encouraging me to dig deep at times to bring out my best self. I am definitely a different person now compared to who I was before starting this degree.”

Ben Rowley
Bachelor of Nursing

“I didn’t feel very confident at first as I hadn’t done anything academic for about 20 years and it was a big shock, but I was determined to keep going because I wanted my kids to know if I can do it, then they can do anything they want.”

Fana Temese-To’omaga
Bachelor of Midwifery

“I’ve found the programme really engaging, I’ve really grown with it and I’ve learnt a lot on my placements. There is a lot of thinking outside of the box and you become a great problem solver at the end of the day.”

Daniel Ajello
Bachelor of Occupational Therapy

“The academic side was hard, I’d left school at 14 years old, but OP’s teachers helped me heaps. They’d even stay into the evening helping me in their own time.”

Te Ani Rakete
(Ngāpuhi & Ngāti Kahungunu & Ngāti Porou)
Bachelor of Social Services
Nursing

Nursing is a rewarding career that offers the opportunity to make a real difference in people’s lives.

Nurses care for and work with individuals, whānau and groups of clients in collaboration with other health professionals. Registered Nurses and Enrolled Nurses may specialise in a variety of practice areas, including medical and surgical, mental health, child health/paediatrics, aged care and primary healthcare.

Otago Polytechnic Nursing graduates are very well-regarded and in high demand throughout New Zealand. Māori, Pasifika and male nurses are particularly sought-after.

Career opportunities

> Worldwide demand for Registered Nurses and Enrolled Nurses
> Wide range of career options in New Zealand and overseas (including working for hospitals, health centres, community agencies, public health, Plunket and rest homes).

For full entry requirements, visit op.ac.nz/nursing

Careers.

Enrolled Nurses deliver nursing care and health education across a range of healthcare settings under the direction of a Registered Nurse. On successful completion, you will be eligible to sit the State Final Examination for registration as an Enrolled Nurse in New Zealand.

- NCEA Level 2 which must include 12 credits in Level 1 Maths.
- Alternative requirements – evidence of literacy, numeracy and an ability to study at the appropriate level. This can be through study, work and/or life experience (assessments are available).
- IELTS (Academic) – 6.5 (no band score lower than 6.5), from one test issued in the last two years OR CET with a C+ band/score in each section in one sitting.
- Cover letter, CV, Level 2 Comprehensive First Aid Certificate, health declaration form; two referee reports; Police Check; undertake an interview.

Competency Assessment Programme for New Zealand Registered Nurses

Complete this programme to obtain a current Annual Practising Certificate. Acquire the most up-to-date skills and knowledge required to be part of a healthcare team in New Zealand.

- All New Zealand-registered nurses who meet Nursing Council of New Zealand reqs will be accepted (dependent upon availability).
- CV, Criminal Conviction History Report, verification letter from Nursing Council of New Zealand.
- Be computer literate; have access to laptop.

Competency Assessment Programme for Overseas Registered Nurses

Comprehensive First Aid Certificate for Registered Nurses

Recognised degree in Nursing; at least two years’ experience as Registered Nurse.

Original notification from Nursing Council of New Zealand of requirement to complete Competency Assessment Programme.

- Recognised degree in Nursing; at least two years’ experience as Registered Nurse.
- Provide Criminal Conviction History Report.
- Be computer literate; have access to laptop.
- IELTS (Academic) – 7.0* (no band score lower than 7.0) OR CET with a B band* in each section in one sitting.

Bachelor of Nursing

Become educated to the highest professional standards through both theoretical and practical learning. Upon successful completion, you will be eligible to sit the State Final Examination for registration as a Registered Nurse in New Zealand.

- A minimum of 42 NCEA Level 3 credits including at least 14* credits in biology or chemistry, 14* credits in English or English-language rich subject, 14* credits in one other approved subject, AND
- 10 literacy credits at Level 2 or above (5 reading, 5 writing), AND
- 10 numeracy credits at Level 1 or above (specified achievement standards OR package of 3 unit standards).
- Specific requirements apply for those applicants over 20 years of age. See our website for more information.
- Level 2 Comprehensive First Aid Certificate, health declaration, two referee reports, Police Check.
- IELTS (Academic) – 6.5 (no band score lower than 6.5) OR Occupational English Test (CET) with a C+ band/score in each section in one sitting.

Certificate in Professional Practice for Registered Nurses

- Level 2 Comprehensive First Aid Certificate, health declaration form; two referee reports; Police Check; undertake an interview.
- CV, Criminal Conviction History Report, verification letter from Nursing Council of New Zealand.

All New Zealand-registered nurses who meet Nursing Council of New Zealand reqs will be accepted (dependent upon availability).

Complete this programme to obtain a current Annual Practising Certificate. Acquire the most up-to-date skills and knowledge required to be part of a healthcare team in New Zealand.

- CV, Criminal Conviction History Report, verification letter from Nursing Council of New Zealand.
- Be computer literate; have access to laptop.
Experience the privilege of delivering new life into the world.

Midwives provide woman-centred health care with the aim of ensuring the best possible experience for women and their whānau during pregnancy, childbirth and the early weeks of a baby’s life.

Midwives are responsible for care in uncomplicated childbirth, but if complications arise, they collaborate with medical and midwifery colleagues to ensure all specialist care is provided.

Our graduates are highly sought-after and there is a particularly high demand for Māori and Pasifika practitioners.

Career opportunities
> Community-based caseloads
> Employment within a maternity facility
> Education and research in the field of midwifery
> Provision of professional advice within professional organisations or maternity facilities.

“The programme absolutely prepared me for the job. It’s a really practical qualification, we were working clinically straight away and really encouraged to be hands-on.”

Emma Madeiros
Bachelor of Midwifery

Recertification and Registration Competence Programmes
We offer the following four courses, approved by the Midwifery Council of New Zealand, as part of the Recertification Programme for New Zealand registered midwives and part of the Registration Competence Programme for overseas registered midwives:
> New Zealand Maternity and Midwifery Systems; Pharmacology and Prescribing for Midwives; Cultural Competence for Midwives; Examination of the Newborn for Midwives.

We also offer a wide range of postgraduate programmes:
> Postgraduate Certificate in Midwifery Practice
> Postgraduate Diploma in Midwifery
> Master of Midwifery

Alternatively, you may wish to pursue postgraduate studies in another of our study areas. For more info, visit op.ac.nz/postgraduate-studies

* If you studied and achieved NCEA Level 3 during 2020 but don’t meet the specific credits required and still wish to apply, please email midwifery@op.ac.nz to discuss your situation.
You need a strong science background but some allowances may be made due to Covid-19 disruption. Dom – Domestic; Intl – International; inc – Including; min. – Minimum; *First year
^Per course; NZQA – New Zealand Qualifications Authority

For full entry requirements, visit op.ac.nz/midwifery
Help people do the things that are important to them so they can lead meaningful, satisfying lives.

Occupational Therapists work with a range of ages and in a variety of environments and situations. These include helping children in schools with their learning needs; working with people who have had an illness, injury or disability; and assisting those with mental illness to engage effectively in everyday tasks.

Our graduates gain employment within the health and wellbeing sector in New Zealand, and have opportunities to work internationally.

**Career opportunities**

- Occupational Therapist
- Needs Assessor
- Case Manager
- Private Practitioner
- Community/Youth Development Worker
- Team Leader/Manager
- Researcher.

“If you have a passion for working with people in a very hands-on way, you will love Occupational Therapy – even more so if you do it through Otago Polytechnic.”

Connor Hamilton

Occupational Therapy allows you to work with such a variety of different people, in different settings, with different focuses.”

Maisha Loveday

Bachelor of Occupational Therapy
Counselling, Career Practice, Disability Support, Mental Health Support

Contribute to the wellbeing of individuals and communities.

People who work in Human and Social Services support people who are experiencing personal and social difficulties, helping them to improve their quality of life.

Responsibilities may include offering assistance and guidance to clients, planning activities, running workshops and working directly with families, groups and organisations.

The demand for skilled people is likely to remain strong in this sector – New Zealand faces a growing and ageing population and many agencies exist to address a wide range of social issues.

Career opportunities

> Mental Health Advocate/Worker
> Disability Support Advocate/Worker
> Community/Social Services Worker
> Counsellor
> Career Practitioner.

**TAF** - Targeted Training and Apprenticeships Fund; * - From 1 July 2020 to 31 Dec 2022; ** - Due to Covid-19 disruption, if you studied and achieved NCEA Level 3 during 2020 you only need 12 credits per Level 3 subject (i.e. a total of 36 credits); Dom – Domestic; Intl – International; N/A – not available; TBC – to be confirmed; * First year; *all entry requirements subject to final approval; NZQA – New Zealand Qualifications Authority
Share knowledge, expand minds and inspire a love of learning in others.

Take an introductory step towards gaining employment in Education. You could enter the early childhood sector, gain a formal teaching qualification and become a confident adult educator, or expand your professional and cultural portfolio in the workplace by becoming proficient in basic te reo Māori.

Educators are always in demand and teaching skills are highly transferable.

**Career opportunities**
- Childcare Support Worker
- Home-Based Carer
- Nanny
- Education Support Worker
- Tertiary Teacher
- Private Educator
- Industry Educator
- Staff Trainer.

For more career information and up-to-date salaries, visit [careers.govt.nz](http://careers.govt.nz)

**Introduction to Te Tiriti o Waitangi**

This two-day workshop provides an environment in which you can explore the Treaty of Waitangi/Te Tiriti o Waitangi and its implications in a non-confrontational, collaborative process.

Visit [op.ac.nz/te-tiriti-o-waitangi](http://op.ac.nz/te-tiriti-o-waitangi)

**Te Reo Māori for the Workplace**

EduBits is our innovative new learning platform that enables you to gain skills and official recognition without having to work through a formal qualification. Each assessment is small enough to be manageable for busy people but big enough to be meaningful to employers.

We are excited to be offering a Te Reo Māori for the workplace EduBit (Level 3, 5 credits) which enables you to show that you can:
- accurately pronounce introductions, greetings and farewells relevant in the workplace
- use basic te reo Māori in workplace correspondence
- use te reo Māori relevant to your industry or profession.

To learn more visit [edubits.nz](http://edubits.nz)
“Otago Polytechnic set me up really well for work. I knew very little about construction beforehand, but the Diploma sorted that.”

Ben Sadowitz
New Zealand Diploma in Construction (Level 6) (Construction Management) or (Quantity Surveying)
Construction

“We got to learn the basic skills of building and the use of tools and machinery, but also had the opportunity to build a house that gets auctioned off to the public.”

For extensive practical training and work experience, gain the skills and knowledge needed to work as a stonemason. Longer term career options might include site management, sub-contracting, business ownership, landscape architecture, sales and stone procurement, or sculpture.

There is considerable demand for qualified construction graduates to assist with, and lead, a growing number of building projects in New Zealand and beyond.

Become a qualified construction practitioner to work on building or infrastructure projects alongside clients, architects, engineers, and construction companies. You may specialise in a number of areas, such as:

Architecture
> Design buildings from a client brief and concept, to detailed design and construction supervision.

Construction Management and Quantity Surveying
> Price and manage construction projects to ensure quality buildings are completed on time and within budget.

Carpentry and Stonemasonry
> Carpenter – assemble buildings as per designs
> Stonemasonry – build structures and veneer in natural stone.

Career opportunities
> Project management
> Building contracting
> Quantity surveying practices
> Construction companies
> Engineering consultancies
> Architectural practices
> Local authority and government agencies
> Property development and management companies.

“We got to learn the basic skills of building and the use of tools and machinery, but also had the opportunity to build a house that gets auctioned off to the public.”

Kirsty Currie
Certificate in Carpentry (Level 4)*
*Now replaced by the New Zealand Certificate in Carpentry (Level 4)
New Zealand Diploma in Building Surveying (Level 6) (Construction Management) or (Quantity Surveying)

Gain the technical work-readiness to price and manage construction projects. Graduates may work for consultant quantity surveying practices or for construction companies in roles such as estimator, contract manager, contract administrator or project manager. Pathway into our Bachelor of Construction (Quantity Surveying) to expand your skill set.

**CONSTRUCTION MANAGEMENT STRAND**
- You must be working in the construction industry with a New Zealand trade background or similar, and you need to be working in a supervisory capacity (or will have that opportunity) during your study.

**QUANTITY SURVEYING STRAND**
- Min. 50 NCEA Level 2 credits inc. 12 credits in maths, and min. 12 NCEA Level 1 literacy credits, OR equivalent knowledge/skills.

**BOTH STRANDS**
- IELTS (Academic) – 6.0 (no band score lower than 5.5) from one test within the last two years.

**New Zealand Diploma in Building Surveying (Level 6)**

Do you work in a Building Surveying environment and need this qualification to meet regulations? In partnership with Future Skills, Building Officials Institute of New Zealand (BOINZ) and Skills, we are offering you the chance to complete this qualification while in employment.

- Only open to those engaged in Building Consent Authority employment (or an equivalent environment).
- A minimum of 50 NCEA credits at Level 2 or above, including 12 credits in English or a related subject, and a minimum of 10 numeracy credits at Level 1 or above, OR equivalent.
- A current Building Construction Passport/Site Safe Passport OR equivalent.
- Mandatory PPE requirements.
- Provisional entry possible.
- IELTS (Academic) – 6.0 (no band score lower than 5.5).

**Bachelor of Construction (Quantity Surveying) or (Site Management)***

Qualified construction professionals are in high demand. This qualification will equip you to take an active lead role as you will gain technical work-ready skills to price and manage construction projects, plus the ability to research, critique and improve processes to enhance project outcomes. Graduates may work for consultant quantity surveying practices or for construction companies in roles such as estimator, contract manager, contract administrator or project manager. With experience, they may develop into more senior industry roles.

**QUANTITY SURVEYING STRAND**
- Applicants under 20 years of age: NCEA Level 3 inc. 14+ credits at Level 3 or above in three approved subjects, 10 NCEA Level 2 or above literacy credits (5 reading, 5 writing) and 12 NCEA Level 2 or above numeracy credits.
- Applicants over 20 years of age: must supply evidence of industry experience and/or alternative relevant qualifications.
- Provisional entry possible.
- IELTS (Academic) – 6.0 (no band score lower than 5.5) from one test taken in the last two years.

**SITE MANAGEMENT STRAND**
- You must have a New Zealand trade background or similar, and be either working in construction in a supervisory capacity or will have the opportunity to do so during the duration of your studies.
- IELTS (Academic) – 6.0 (no band score lower than 5.5) from one test taken in the last two years.

**Bachelor of Architectural Studies (Architectural Technology) or (Interior Architecture)**

Prepare to work as an Architectural Technologist or for further study if you want to become an Architect or Interior Architect.

- NCEA Level 3: 14+ credits in three approved subjects at Level 3 or above, 10 Level 2 or above literacy credits (5 reading, 5 writing) and 10 numeracy credits at Level 2 or above, OR equivalent qualifications/experience (provisional entry may be possible).
- Submit a portfolio demonstrating NCEA Level 3-equivalent design, graphic and/or art skills.
- IELTS (Academic) – 6.0 (no band score lower than 6.0).

---

**ITAB Carpentry Apprenticeships**

Endorsed by the Certified Builders Association

Learn from professionals and gain sought-after skills and a Level 4 qualification with this carpentry apprenticeship pathway.

Brought to you by Otago Polytechnic and Industry Training Association Building (ITAB), this apprenticeship option allows you to work in the construction industry as an employee under the supervision of someone who is prepared to train you. It addresses industry standards and provides you with the full support of regional coordinators.

Visit [op.ac.nz/itab-carpentry](op.ac.nz/itab-carpentry)
Technical Engineering

New Zealand-trained engineering graduates are in demand and have a great reputation worldwide.

Civil engineering graduates are involved in the design, construction and project management of civil works such as roads, dams, earthquake engineering and mining operations.

Mechanical engineering involves the design, manufacture and management of engineering projects and equipment maintenance. This industry has experienced substantial growth and many of our graduates secure employment before they even finish their qualifications.

Electrical engineering deals with the practical use of electricity in all its forms, especially the design and application of circuitry and equipment for power generation and distribution, building services, machine control and robotics. Qualified technicians are in high demand.

Career opportunities
> Design Consultant or Engineer
> Commissioning Engineer
> Contract and Project Manager
> Maintenance Manager
> Specialist Engineering Technician
> Structures or Mechanical Designer
> Mining or Construction Worker
> Manufacturing or Facilities Manager
> Electrical Designer, PLC Programming and Fault Finder
> Energy Auditor.

“Mechanical Engineering is super hands-on. Instead of just reading about the subject, you experience what it’d be like if you were working.”

Hayley Yates
New Zealand Certificate in Mechanical Engineering (Level 3)
**Engineering Trades**

**Electrical and Mechanical**

**Electricians** install, maintain and repair electrical wiring and electrical or electronic equipment. There is strong demand for qualified electricians and New Zealand–trained electricians are held in high regard internationally.

**Career opportunities**
- Electrical and engineering firms
- Building construction companies
- Telecommunications
- Self-employment

**Mechanical engineers** maintain and develop plant and machinery in key industries like mining, dairy and manufacturing. The industry has experienced significant growth in recent years and there is always demand for skilled graduates. With a responsible attitude you may even step up into project management.

**Career opportunities**
- Manufacturing
- Mining
- Building installation
- CNC Machine Operator
- Machine Operator
- Specialist Production Welder
- Metalworker/Fabricator

---

**New Zealand Certificate in Mechanical Engineering (Level 3)**

This hands-on, pre-apprenticeship programme will give you ample opportunity to work within our workshops and to gain valuable off-site work experience. Upon successful completion, you will have completed the academic requirements of the first year of an industry apprenticeship thus reducing the amount of time you may need to spend completing your apprenticeship* in industry.

- NCEA Level 1 with 10 Numeracy credits (algebra, trigonometry, measurement recommended) and 10 Literacy credits OR be able to demonstrate equivalent knowledge/skills OR successful completion of engineering literacy/numeracy assessment.
- IELTS (Academic) – 5.0 (no band score lower than 5.0) issued within the last two years.

**Location**
- Dunedin

**Full-time**
- 1 year

**Part-time**
- N/A

**Indicative fee**
- #Free or YGS (Dom) $22,720 (Intl)

**Start**
- Feb

---

**New Zealand Certificate in Electrical Engineering Theory (Level 3)**

Through project-based learning, develop the skills you need to enter employment in non-registration areas of the electrical industry such as electronic security and appliance servicing. Or, if you want to become an electrician, this is the ideal pre-apprentice preparation and, upon successful completion, you will need to enter an apprenticeship agreement and complete our Level 4 programme (see below).

- NCEA Level 2 English, maths and physics or general science OR equivalent.
- Undertake an interview; must hold a First Aid Certificate before you can be awarded the qualification.
- IELTS – 5.5 (no band score lower than 5.5).

**Location**
- Dunedin

**Full-time**
- 1 year

**Part-time**
- N/A

**Indicative fee**
- #Free (Dom) $23,400 (Intl)

**Start**
- Feb

---

**New Zealand Certificate in Electrical Engineering Theory and Practice (Trade) (Level 4)**

Studied in conjunction with an apprenticeship, gain the skills and knowledge you need to work independently as a commercially-competent electrician. Including the Electrical Workers Registration Board (EWRB) exams (required for registration as an electrician), you’ll be able to apply to EWRB for registration upon successful completion.

- Applicants under 20 years of age: NCEA Level 2 English, maths and physics or general science OR New Zealand Certificate in Electrical Engineering Theory (Level 3) OR equivalent.
- Provisional entry possible for those under 20 years of age who do not meet academic entry requirements.
- Applicants over 20 years of age: no minimum academic requirements.
- All applicants must be employed in electrical industry at time of study (driver’s licence desirable) and must enter into a training agreement.
- IELTS (Academic) – 5.5 (no band score lower than 5.0) issued within the last two years.

**Location**
- Dunedin

**Full-time**
- 4 years

**Part-time**
- N/A

**Indicative fee**
- #Free (Dom) N/A (Intl)

**Start**
- Flexible

Engineering Trades
Automotive

If you’re a hands-on kind of person who really likes to make things tick, then a job in the automotive trades could be perfect for you.

People in this industry repair, maintain, modify and sell vehicles and vehicle parts. Some professionals specialise in working with one type of vehicle, product or service.

Employment opportunities in the automotive industry are very good as there is a steady demand for automotive products and services.

Career opportunities
> Automotive Engineer/Technician (light equipment, heavy equipment or electrical)
> Motorcycle Technician
> Engine Mechanic
> Heavy Vehicle Operator/Driver.

Automotive apprenticeships

New Zealand Certificate in Automotive Electrical Engineering (Level 4)  
This programme is for those interested in a career as an Automotive Electrical Engineer. You’ll learn to safely and effectively diagnose and repair electrical and electronics faults in a range of vehicles.
> A Level 3 qualification in Automotive Engineering OR equivalent.
> Managed apprentices must be employed in an automotive engineering workplace.
> If English is not your first language, you must have University Entrance OR IELTS (Academic) – 5.5 (no band score lower than 5.0) from one test issued in the last two years OR equivalent.

New Zealand Certificate in Electric Vehicle Automotive Engineering (Level 5)  
Learn to diagnose and repair faults in battery electric and hybrid electric vehicles and machines. This programme is designed for experienced automotive engineering technicians who want to work in an advanced technical role, specialising in electric vehicles.
> An Automotive Engineering qualification at Level 4 OR provide evidence of equivalent skills or knowledge.
> If English is not your first language, you must have New Zealand University Entrance OR IELTS 5.5 (no band score lower than 5.0) achieved in one test completed in the last two years OR equivalent.
> A current workplace First Aid certificate is recommended.

For full entry requirements, visit op.ac.nz/auto-apprenticeships

Career opportunities
> Senior bicycle store workshop and retail positions
> Mechanic in sole employee workshop
> Specialist bicycle servicing provider (wheel building, suspension servicing)
> Bicycle tourism industry provider (guides, workshop)
> Bicycle mechanic on professional racing teams.

Other areas of opportunity within the industry
> Bicycle store ownership
> Bicycle import businesses
> Bicycle coaching and fitting
> Bicycle designing and building.

Engineering Trades

Bicycle Mechanics

Bicycle Mechanics programmes are offered through our Central campus, and will give you the skills you need to stand out in this rapidly-growing industry.

These qualifications are offered online with practical block courses held in our fully-equipped workshop. In addition, work experience opportunities will allow you to get a great first foot in the door of industry!

For more career information and up-to-date salaries, visit careers.govt.nz

For more information, visit op.ac.nz/study-engineering

## New Zealand Certificate in Bicycle Servicing (Level 3)
Keen on cycling? New Zealand’s recreation, fitness, tourism and sport industries are all quickly developing and a qualification in bicycle servicing will enable you to kickstart a career within these exciting areas. Our Level 4 Certificate provides the perfect pathway to take your skills to the next level (see below).
> Applicants over 20 years of age, no minimum academic entry requirements.
> Applicants under 20 years of age (in exceptional circumstances), applicant granted admission where they supply evidence of ability to succeed in programme.
> IELTS (Academic) – 5.0 (no band score lower than 5.0) issued within the last two years.

## New Zealand Certificate in Bicycle Mechanics (Level 4)
Gain a qualification that makes you stand out from the crowd in this rapidly growing industry. Enjoy enhancing your practical skills in our fully-equipped workshop classroom during your block courses and benefit from a hands-on, work experience placement.
> Over 20 years of age, no min. academic entry requirements.
> Under 20 years of age (in exceptional circumstances), applicant granted admission where they supply evidence of ability to succeed in programme.
> IELTS (Academic) – 5.5 (no band score lower than 5.0) issued within the last two years.
The Information Technology industry is now an integral part of every industry. If you are interested in building the future – self driving cars, virtual reality, robots, automation, Internet of Things – then IT is for you.

There are currently far more IT jobs than there are graduates. Employers want staff with a good understanding of the IT industry and a willingness to keep pace with trends and developments. Our highly-regarded programmes will give you the industry-relevant skills required to hit the ground running from day one.

Career opportunities
> Systems Administrator
> Software Developer
> Web Developer
> Network Engineer
> Database Administrator
> Security
> Software Tester.
“The past year and a-half has made me realise that gender has nothing to do with your knowledge or ability to learn new things in the IT industry. This comes down to each individual person.”

Heather McDonald
Bachelor of Information Technology

“The lecturers are all so patient and so good. They guide me all the way. I don’t have that fear that I won’t be able to do this.”

Evelyn Barbosa De Araujo Tenorio
New Zealand Certificate in Information Technology Essentials (Level 4)
Bachelor of Applied Management

“I see the degree as a stepping stone to my goal of creating a digital database that people can use to track and research their own whakapapa.”

Kane Dunn – Ngā Puhi, Ngāti Kahu
Bachelor of Information Technology

“The hands-on learning has really changed my views on my own abilities and the programme structure continuously builds your self-confidence.”

Fawaz Dinnunhan
New Zealand Certificate in Information Technology Essentials (Level 4)
Bachelor of Information Technology

“The past year and a-half has made me realise that gender has nothing to do with your knowledge or ability to learn new things in the IT industry. This comes down to each individual person.”

With advances in technology showing no signs of slowing, SIGNAL has developed four programmes that cover a range of IT development needs.

Developed in partnership with industry, these programmes are delivered through a variety of methods including studio-based projects, seminars, industry placements, mentoring and work-based learning. As well as producing highly-competent IT graduates with work-relevant skills, SIGNAL provides more effective pathways for graduates from IT education into employment.

Our four keystone programmes are:

**SHIFT** – for graduates from non-IT backgrounds who want to move into an IT-focused career OR for recent graduates who want to enhance their qualification with IT skills to further their employment prospects

**ACCELERATE** – for recent tertiary-level IT graduates looking to supercharge their skill sets in a work-based learning programme

**EDUCATE** – for school teachers who want to develop their knowledge and skills to teach the fast-growing area of Digital Technologies

**XTEND** – for experienced IT professionals who wish to move into a leadership role or future-proof their business.
Business

Every industry around the globe needs smart, innovative people with skills in leadership, management, administration and strategic planning.

Our graduates are solution-focused and industry-ready. Our programme reflects current industry practice, and you’ll gain vital practical experience through project-based learning and internships.

This exciting, hands-on certificate will give you the skills to provide a quality visitor experience through your in-depth knowledge of New Zealand tourism destinations. Take part in a series of local industry visits and organise a trade show.

- Must be at least 17 years of age.
- NCEA Level 2 OR relevant work experience in retail/sales/hospitality or any customer service-related industry.
- IELTS (Academic) – 5.5 (no band score lower than 5.0).

| New Zealand Diploma in Tourism and Travel (Level 5) | Dunedin | 1 year | ✔ | $6,800 (Dom) $20,350 (Intl) | Feb & July |

Gain the skills to hold supervisory positions in the tourism travel industry. Learn how to enhance the visitor experience by evaluating local, national and international tourism operations. A field trip to a tourist region, guest speakers and local tourism enterprise visits will enable you to build first-hand experience of the industry. This programme will give you 120 credits towards our Bachelor of Applied Management so you can gain entry to year two (see page 38).

- Min. NCEA Level 2 including 10 literacy credits (or equivalent); prefer NCEA Level 3.
- IELTS (Academic) – 5.5 (no band score lower than 5.0).

| Graduate Diploma in Tourism Management | Dunedin | 1 year | ✔ | $5,719 (Dom) $20,350 (Intl) | Feb |

Learn about tourism operations and enterprises, and complete an industry research project in a tourism organisation, enabling you to forge important relationships with potential employers in the industry.

- Bachelor’s degree in any discipline OR equivalent skills/experience.
- You may not enrol in a major that you have already studied at undergraduate level.
- IELTS (Academic) – 6.0 (no band score lower than 5.0).

| Bachelor of Applied Management (Tourism Management) | Dunedin or Auckland* | 3 years | ✔ | $6,936* (Dom) $20,350* (Intl) | Feb & July (Dun) Jan, Mar, June, Aug & Oct (Auck) |

“I like how involved everyone gets in the classes. We don’t just sit and take notes. There is a lot of variety each week.”

Chris Motion
New Zealand Certificate in Fashion (Level 4)

“The most important thing I’ve learned is to see the whole picture and think more globally in terms of designing for sustainability.”

Regina Speer
Bachelor of Design (Communication)

“Doing work experience in a place like the Dunedin Public Art Gallery gives you a different perspective on art – and life.”

Kipp Richards
Bachelor of Visual Arts

“It is a very versatile programme. As well as learning the fundamental elements of Product Design I can also choose and design my own path as I go.”

Zoe Morehu
Bachelor of Design (Product)
An art qualification demonstrates that you can be both practical and visionary – attributes highly sought-after by employers.

The Dunedin School of Art was established in 1870 and has the distinction of being the first art school in New Zealand.

We provide:
> hands-on, studio-based teaching
> a fantastic range of workshop facilities
> lecturers with national and international profiles
> access to an active community of artists
> work placement opportunities
> study abroad opportunities.

Our graduates are work-ready, resourceful and conscientious and have skills which are transferable to a range of creative industries.

Career opportunities
> Some graduates experience success and international recognition as full-time, practising artists
> Other graduates work in a diverse range of professions in a wide variety of fields including visual culture, education, design, management and marketing.

Specialist studio disciplines

Ceramics
We have the largest ceramics studio in New Zealand with a fantastic range of facilities. Develop your own individual project and enjoy our hands-on, clay-making workshops.

Electronic Arts
In this constantly evolving field, choose to explore 2D and 3D animation, film, installation, augmented reality, audio/video production and projection, performance, and online media.

Jewellery and Metalsmithing
Learn about the craft and language of adornment. Our workshops include specialist facilities for stone cutting, lost wax casting, silversmithing, screen printing, etching and anodising.

Painting
Make your artwork relevant to today’s society and to national and international contemporary practice. Develop your skill in painting and investigate the painting styles of recent centuries.

Photography
Learn the principles of photography as you study different photographic approaches and enjoy access to a range of facilities and equipment such as darkrooms, a lighting studio and large-scale colour printing.

Print
Our internationally-renowned print studio allows you to explore a wide range of print processes and techniques including metal plate etching, screen printing and more contemporary practices of digital print and image development technologies.

Sculpture
Our studio is equipped to international standards and has separate workshops for wood, metal, plaster, clay, plastic and bronze. Enjoy working with your hands on your own individual project.

Textiles
Explore the field of textiles in a visual arts context. We specialise in print and construction processes such as screen-print methods using pigment ink and dye, manual and digital embroidery, and 3D sewing.

Portfolios
Find out what information you need to include in your portfolio and how to deliver it to us: op.ac.nz/artportfolios
If you don’t have a portfolio or meet the entry criteria, our creative bridging programmes will help – see page 40.
Successful completion of both of these programmes will prepare you for application to our design/art degrees; *First year; TBC – To be confirmed; min. – minimum

For full entry requirements, visit [op.ac.nz/art](http://op.ac.nz/art)

**New Zealand Certificate in Arts and Design (Level 4)**
No matter what direction your creative career takes, you’ll benefit from having the ability to learn and apply creative processes, methods and technologies in both art- and design-based studio projects. This programme is great preparation for further study in any creative programme.

- Open entry; portfolio/evidence to demonstrate creative work; possible interview.
- IELTS (Academic) – 5.5 issued within the last two years, or equivalent (no band score lower than 5.0) OR equivalent.

**New Zealand Certificate in Digital Media and Design (Level 4)**
Project options in digital photography, digital illustration, web design, moving image, animation and interactivity will allow you to develop real-world skills and a portfolio of work for application to higher level study.

- Open entry; portfolio/evidence to demonstrate creative work; possible interview.
- IELTS (Academic) – 5.5 issued within the last two years, or equivalent (no band score lower than 5.0).

**New Zealand Diploma in Arts and Design (Level 5)**
New Zealand’s only specialised tertiary ceramics qualification, this programme has an emphasis on exploration and experimentation and you will have the chance to develop your own projects. Progress into our Level 6 qualification to further your learning.

- Level 5 qualification in the same or related field OR equivalent knowledge and skills demonstrated through a portfolio.
- For those over 20 years of age, there are no min. academic requirements.
- For those under 20 years of age, special entry may be possible for those that supply evidence of ability to succeed on the programme.
- IELTS (Academic) – 6.0 from one test issued within the last two years, or equivalent (no band score lower than 5.0).

**New Zealand Diploma in Arts and Design (Level 6)**
Continue to explore ceramics and gain leadership and professional practice skills to manage projects/briefs and present your work in a real-world context. Progress into our Bachelor of Visual Arts to broaden your skillset.

- Level 5 qualification in the same or related field OR equivalent knowledge and skills demonstrated through a portfolio.
- For those over 20 years of age, there are no min. academic requirements.
- For those under 20 years of age, special entry may be possible for those that supply evidence of ability to succeed on the programme.
- IELTS (Academic) – 6.0 from one test issued within the last two years, or equivalent (no band score lower than 5.0) OR equivalent.

**Bachelor of Visual Arts**
A qualification in the Visual Arts will enable you to find employment in a diverse range of professions such as practising artist, curator, art educator or researcher. The skills you gain will be transferable to a wide variety of fields including education, design, management and marketing. Initially you will gain experience in a variety of studio disciplines and then specialise during your second year.

- Five years completed at secondary school with successful art units and portfolio, OR NCEA credits including 14* credits in each of three approved subjects at Level 3 or above, 10 Level 2 or above literacy credits (5 reading, 5 writing) and 10 numeracy credits at Level 1 or above, OR a Level 3 qualification in a related field OR equivalent academic achievement.
- Special entry may be possible for those that supply evidence of ability to succeed on the programme.
- IELTS (Academic) – 6.0 from one test issued within the last two years, or equivalent (no band score lower than 5.0).

**Graduate Diploma in Visual Arts**
If you already hold a degree, embrace the chance to carry out a personalised course of study in your chosen area(s). Graduates would be able to consider a diverse and exciting range of careers including an Illustrator, Art Therapist, Researcher, Artists’ Agent, Photojournalist or Colour Consultant.

- Five years completed at secondary school with successful art units and portfolio, OR NCEA credits including 14* credits in each of three approved subjects at Level 3 or above, 10 Level 2 literacy credits (5 reading, 5 writing) and 10 Level 1 numeracy credits.
- Mature students – portfolio and associated writing.
- All applicants must submit a portfolio.
- IELTS (Academic) – 6.0 (no band score lower than 5.5) OR equivalent.

We also offer a wide range of postgraduate programmes:
- Bachelor of Visual Arts (Honours) > Postgraduate Certificate in Visual Arts > Postgraduate Diploma in Visual Arts > Master of Visual Arts > Master of Fine Arts
- Alternatively, you may wish to pursue postgraduate studies in another of our study areas. For more info, visit [op.ac.nz/postgraduate-studies](http://op.ac.nz/postgraduate-studies)

Don't have time for a full qualification?
No problem! We offer a fantastic range of night classes including Introduction to Darkroom Photography, Jewellery, Sculpture and Printmaking.
For more info, visit [op.ac.nz/art-night-classes](http://op.ac.nz/art-night-classes)
Designers find innovative solutions to material, social and ecological problems. We are creative, confident and contribute to change.

Immerse yourself in an innovative and supportive environment which allows you to engage in real-world projects, develop your individual voice as a designer and learn how to work in a design team. [^]: Successful completion of the New Zealand Certificate in Digital Media and Design (Level 4) and the New Zealand Certificate in Arts and Design (Level 4) (page 45) will prepare you for application to our design/art degrees; Dom – Domestic; Intl – International
Culinary arts and food design unite at Dunedin’s innovative Food Design Institute.

Exploring the concept of human-centred food design, our award-winning staff will teach you the fundamentals of food preparation interwoven with progressive design techniques. Transform traditional dishes into modern culinary masterpieces and create bespoke food experiences that inspire and delight.

As a world leader in food design education, the Institute produces graduates who are food-savvy, ambitious and innovative. They can think on their feet and adjust to consumer-driven trends – vital in the rapidly evolving world of culinary design.

Our team of industry experts design and develop food business concepts, undertake research and development for new food products, and help incubate inventive start-ups.
“I’d worked previously as a restaurant cook—but the degree opened up a new world of possibilities.”
**Nick Keen**
Bachelor of Culinary Arts

“Experiment while you have the chance! Don’t be afraid to ask the lecturers lots of questions.”
**Kristine Jopson**
Bachelor of Culinary Arts

“Training in the on-campus restaurant and café at was a real highlight – putting aside the textbooks and gaining invaluable practical knowledge.”
**Amanda Linklater**
Diploma in Hospitality Management
Follow your passion for cookery in a learning landscape that embraces seasonality and local produce.

Immerse yourself in our unique campus where we celebrate local, seasonal and sustainable produce with a paddock-to-plate philosophy. Enjoy access to regional ingredients, milk cows and make cheese, catch fish to prepare and cook, and embrace opportunities for foraging.

You’ll gain valuable experience working locally in the industry as well as creating and managing events to showcase and sell your food.

And the experience doesn’t end there! The Central Otago region offers opportunities in the hospitality sector both during and after your studies.

**Brewing in Central**

We have New Zealand’s first brewing qualifications and our own fully-commercial, purpose-built brewery for you to learn in – the Otago Brew School.

These programmes are truly unique. Designed to meet industry needs, they are suitable for home brewers who have a passion for beer, or those who have worked in the industry for a number of years and would like to have their skills recognised with a formal qualification.

For more information visit central.op.ac.nz/craft-beer-qualifications

---

**Targeted Trades and Apprenticeship Fund**

For details, please visit op.ac.nz/students/ttaf-study-for-free

---

**Career opportunities**

- Chef in restaurants, bars and cafés
- Work for catering companies, vineyards, boutique lodges and hotel chains
- Design and create amazing food worldwide.
Cutting-edge culinary arts and innovative design unite in this unique programme.

Embark on this world-leading degree qualification that takes New Zealand’s food culture to new heights. This applied programme will provide you with the design tools, business knowledge and culinary techniques to succeed in a range of careers across all food industries.

**Career opportunities**
- Culinary leadership roles within professional kitchens
- Artisan Food Producer
- Food Stylist and food media roles
- Recipe Development Chef
- Food sales, marketing and brand development
- Food education
- Food policy and systems.

Alternatively, you could progress into one of our postgraduate Design programmes to broaden your range of career options in design-related fields. See page 45 for details.

A friendly, customer-focused attitude is a great starting point if you want to work in hospitality.

If you’re a ‘people person’ who loves seeing the enjoyment that good food and drink can bring, then this is a great career for you.

You’ll develop transferable skills that could see you employed in an exciting and diverse range of jobs, both here and overseas.

**Career opportunities**
- Restaurants and cafés
- Clubs and bars
- Hotel/motel industries
- Catering companies
- Cruise ships
- Progress to supervisory or junior management positions.

For full entry requirements, visit [op.ac.nz/hospitality](http://op.ac.nz/hospitality)

Need to upskill but don’t have much time?

Our Dunedin and Central campuses offer short courses in Food Safety and Alcohol Act 2012 training. Our Central campus offers courses in Coffee-making/Barista skills. Visit [op.ac.nz/hospitality](op.ac.nz/hospitality)
On-site training facilities

In our on-site beauty and hairdressing training salons, you will learn the latest practices used in the commercial salon environment.

> work with real clients and get direct feedback
> enjoy regular visits from guest speakers and industry professionals who provide insight into products, technologies and current trends
> make industry contacts and establish important relationships for your future career.

“If you have the passion to make people look and feel great every day, this is the right career choice for you.”

Heidi Jensen
New Zealand Diploma in Beauty Therapy (Level 5)
Beauty therapy roles are varied, creative and rewarding.

Studying with us gives you the opportunity to work with real clients within exceptional facilities, and enjoy programmes that are recognised as some of the best in the training industry.

On successful completion of our qualifications, you will meet the requirements to become a Registered New Zealand Beauty Therapist. For more information visit beautynz.org.nz

If you meet the appropriate criteria, you may also be able to sit the International Therapy Examination Council (ITEC) qualification exams. ITEC is an international examination board operating in over 38 countries worldwide.

Career opportunities
> Registered New Zealand Beauty Therapist
> Cosmetic Counter Consultant
> Beauty or Cosmetic Sales Representative
> Beauty Salon Receptionist
> Mobile Beauty Therapist
> Self-employed Therapist
> Beauty Clinic Manager/Owner.

Bachelor of Applied Science with focuses in Sport, Exercise, Health and Massage

This contemporary degree is based around practical experiences and problem-based learning. Gain real-world industry experience, take part in community projects with the support of staff and graduate with the ability to gain employment at competent practitioner level within a professional organisational setting. Sport and Exercise speciality graduates will meet the registration requirements for the Register of Exercise Professionals.

- NCEA Level 3: 14* credits in three subjects at Level 3 or above, 10 NCEA Level 2 or above literacy credits (5 reading, 5 writing) and 10 NCEA Level 1 or above numeracy credits OR a Level 4 qualification on the NZQA equalling 60 credits or more completed within one year OR University study: successful completion of courses equating to 50% of first year learner workload completed within one year OR equivalent professional experience.
- First Aid Certificate, meet reqs. of Vulnerable Children’s Act 2014 prior to commencing classes.
- IELTS (Academic) — 6.0 (no band score lower than 5.5).

* Due to Covid-19 disruption, if you studied and achieved NCEA Level 3 during 2020 you only need 12 credits per Level 3 subject (i.e. a total of 36 credits); Dom – Domestic; Intl – International; *First year only; reqs. – requirements

We also offer a range of postgraduate programmes:
- Postgraduate Certificate in Applied Science
- Postgraduate Diploma in Applied Science
- Master of Applied Science

Alternatively, you may wish to pursue postgraduate studies in another of our study areas. For more info, visit [op.ac.nz/postgraduate-studies](http://op.ac.nz/postgraduate-studies)
Massage Therapy includes wellness and relaxation massage, stress management, sports massage and therapeutic massage.

All the different forms of massage involve the study of anatomy and physiology and the development of specific techniques to target particular areas of the body.

With our respected massage programme, you’ll gain hands-on client experience in our Massage Therapy clinic, working under the supervision of experienced massage therapists.

Graduates will be able to apply for registration with Massage New Zealand as Registered Massage Therapists (RMT). To see more information visit massagenewzealand.org.nz

“The body has always intrigued me, and learning how to make the body move in the most efficient way and recover quickly led me to towards massage therapy.”

Becky Johnson
Diploma in Advanced Therapeutic Massage (Level 6)
Adventure, Avalanche Safety & Snowsports

Travel, work and play – all within the one job!
Adventures and Snowsports graduates work in a variety of outdoor locations around the globe teaching activities such as skiing, snowboarding, sea kayaking, abseiling, mountaineering, white-water kayaking, rock climbing and tramping.

The demand for qualified instructors is increasing due to emphasis on safe participation in sport and a growing adventure tourism industry. In recent years, up to 40% of the staff at the Cardrona Alpine Resort in Wanaka have held an Otago Polytechnic instructing qualification.

Career opportunities
> Adventure guiding and instructing
> Employment in outdoor adventure companies
> Ski field roles (instructing, patrolling, management, snow safety, lifts, rentals)
> Tourism ventures
> Self-employment
> Seasonal, overseas contract work.

“Making a career out of my passion has to be one of my greatest achievements.”

Jim Young
New Zealand Certificate in Avalanche Risk Management (Level 5)

“Making a career out of my passion has to be one of my greatest achievements.”

Jim Young
New Zealand Certificate in Avalanche Risk Management (Level 5)

“The Diploma gave me confidence in engaging people with the outdoors – and taught me how to get the best out of others in these environments.”

Glen Riley
Diploma in Outdoor Leadership and Management (Level 5)*

* Replaced by the New Zealand Certificate in Outdoor and Adventure Education

“It’s a very encouraging and happy place to be. The type of learning that happens at Otago Polytechnic is personal, interactive and hands-on. I personally learn better that way.”

Tessa Morris
New Zealand Certificate in Exercise (Level 5)
“I’m much more of a hands-on learner, so my internship has really helped me understand things. The on-the-job experiences have helped me put together the pieces of a puzzle.”

Yannis Warrender
New Zealand Certificate in Horticulture Services (Level 4) (Sports Turf)

Targeted Trades and Apprenticeship Fund
The Government is funding free vocational training programmes for New Zealanders in the wake of the Covid-19 pandemic. These include programmes in horticulture, farming and apiculture.

For details, please visit op.ac.nz/students/ttaf-study-for-free

Horticulture
Amenity Horticulture; Arboriculture; Fruit and Nursery Production; Landscape Construction; Sports Turf Management; Viticulture

Animal Care and Veterinary Nursing
Animal Care; Rural Animal Technology; Veterinary Nursing Assistant; Veterinary Nursing

Agriculture/Farming
Farming Systems; Operational Skills; Specialist Equipment; Infrastructure

Apiculture
Horticulturists assist in the design, production and maintenance of plants, food and flower crops, gardens, and landscapes. This global industry is extremely diverse and you may specialise in a number of areas including fruit production, viticulture (growing grapes for making wine), arboriculture (maintaining the health of trees and shrubs), amenity horticulture (care, maintenance and growth of ornamental plantings), landscape construction and nursery production (propagating and growing plants for sale).

Qualified horticulturists in any specialist field are in demand across the country.

**Career opportunities**

- Commercial and Retail Nursery Worker
- Landscaping Company Worker
- Gardener
- Park Supervisor/Manager
- Orchardist, Viticulturist or Arborist
- Irrigation Technician
- Airport Biosecurity Worker
- Conservation Worker
- Contracts Manager
- Vineyard Supervisor/Manager
- Horticulture-related Sales Consultant.

TTAF - Targeted Training and Apprenticeships Fund; #From 1 July 2020 to 31 Dec 2022; *Subject to final approval - conditions apply; Dom – Domestic; Intl – International; N/A – Not available; TBC – To be confirmed; ^First year
Veterinary and animal-related industries focus on promoting the health, husbandry and welfare of animals. Depending upon your qualification, you may work with small or large animals in a range of different settings, and provide support to veterinarians by performing a variety of tasks. You’ll gain significant industry-related work experience and will also benefit from the Wildlife Hospital Dunedin based at our campus, with a fully-equipped veterinary clinic, surgery, hospital and surgical preparation area, kennels and laboratory. Our graduates are work-ready and highly competent.

**Career opportunities**

- Veterinary Nursing Assistant
- Veterinary Nurse
- Rural Animal Technician
- Animal control and training
- Kennel and cattery management
- SPCA work
- Animal Breeder.

And with additional training:

- Pet grooming
- Wildlife management
- Biosecurity (Dog Handler)
- Zoo Keeper.

### Qualification Details

**New Zealand Certificate in Animal Care (Level 3) (Companion Animals)**

- This programme is your first step if you want to enter an animal-related profession. Learn about the health, welfare, anatomy and physiology of companion animals such as cats and dogs. Progress into the Level 5 programme below upon successful completion.
- No academic entry requirements.
- IELTS 5.0 (Academic) with no band score less than 5.0.
- Health and tetanus declaration; copy of your current Criminal Convictions History.

- **Online with 40 hrs work placement**
- **6 months**
- **$3,135 or YGS (Dom)**
- **N/A (Intl)**

**New Zealand Certificate in Animal Technology (Level 5) (Veterinary Nursing Assistant)**

- Gain the skills needed for a successful career in companion animal healthcare and graduate with the ability to become a Veterinary Nursing Assistant (the first step to becoming a Veterinary Nurse). Progress into the Level 6 Diploma below upon successful completion. International students must study in Dunedin.
- 60 NCEA Level 2 credits with a min. 12 NCEA Level 2 English credits, 12 NCEA Level 1 Maths credits, 12 NCEA Level 1 Science credits OR equivalent.
- Health and tetanus declaration; your current Criminal Convictions History; demonstrate previous experience of working with animals and an aptitude for work with the public; 3 days observing the role veterinarians/vet nurses undertake in vet clinics (see op.ac.nz/nz-cert-animal-tech-level-5 for additional requirements).
- IELTS (Academic) – 6.0 (no lower than 6.0 writing/speaking, no lower than 5.5 reading/listening) OR equivalent.
- Usually, learners in paid employment over 20 hours per week are only able to join the part-time delivery of the programme.

- **Dunedin or online with block courses**
- **1 year**
- **$7,418 (Dom)**
- **$22,220 (Intl)**

**TAS** - Targeted Training and Apprenticeships Fund; #From 1 July 2020 to 31 Dec 2022; *Subject to final approval – conditions apply; Dom – Domestic; Intl – International; N/A – Not available

One of the most important contributors to New Zealand’s economy, the agriculture industry is growing and diversifying.

You’ll study in the high-country farming hub of Central Otago, and be well-prepared for a rewarding career after this hands-on outdoor programme.

Learn an extensive range of best practice farming skills in the classroom and on farm, in an increasingly farm-based programme. These skills include fine wool production and woolshed operations, animal handling and animal health treatment, safe operation of vehicles and machinery, and pasture production and management.

**Career opportunities**
> Shepherd
> General Farm Worker
> Wool industry
> Stock and station.

TTAF - Targeted Training and Apprenticeships Fund; #From 1 July 2020 to 31 Dec 2022; Dom – Domestic; Intl – International; N/A – Not available

Apiculture is one of New Zealand’s fastest growing industries and there is such high demand for this skill that it is listed on Immigration New Zealand’s Immediate Skills Shortage List.

This certificate will enable you to work as an assistant beekeeper for commercial operators, as an independent beekeeper with a small number of beehives or to even develop your own business.

> Beekeeper
Flexible study options

Choose from a range of flexible study options to suit any stage of life!
Studying full-time and on campus might not be right for you. That’s why we have a range of alternative delivery styles that can meet you where you’re at, no matter your other commitments. Read on to discover more about our assessments of prior learning, work-based learning models, online learning, micro-credentials, short courses and night classes.

Short courses and night classes

Learn new skills for enjoyment or employment!
Whether you want to upskill and don’t have time for traditional tertiary study, or you just want to learn something new for fun, we offer a wide range of short courses and night classes.

Check out our range of options in the following subject areas:

> Art
> Computing
> Construction
> Design
> Engineering
> English
> Health
> Horticulture
> Hospitality
> Veterinary Nursing

Courses are added and updated throughout the year, so be sure to check our website for the latest information.

EduBits

Micro-credentials let you show what you know.
EduBits is an exciting new learning platform that enables you to be recognised for your professional skills and knowledge without having to complete a formal qualification.
Your digital badge is credible proof that you have been assessed for, and achieved, a certain set of skills.
Badges are available in a broad range of topics including sustainable business, project management, business skills, education, and more.
edubits.nz

Open Education Resources University (OERu)

A global, online learning platform
OERu enables users worldwide to access high quality learning materials for free through an openly licensed platform, WikiEducator. Pathways to achieve formal academic accreditation are provided by Otago Polytechnic through assessments and we also offer academic consultation. Both of these services are cost options.
oeru.org
Gain a nationally-recognised qualification without going back to the classroom.

Our world-leading assessment methods value the prior learning of individuals who want to become qualified, and support the workplaces that employ them. We measure your existing capability, gained through years of work and life experience, against a formal qualification and give academic credit for what you already know. Better yet, our work-based learning model means you won’t have to take time off from your job while you gain your qualification!

Most programmes available at Otago Polytechnic can be assessed through Capable NZ. Below is our range of Professional Practice qualifications which can be applied to any study area.

You can gain industry-recognised education through flexible online study at TANZ eCampus.

Brought to you by several of New Zealand’s major tertiary education providers, TANZ is an alternative online learning service. All qualifications through TANZ eCampus are industry-recognised, NZQA-accredited and internationally-accepted.
It can be difficult to decide which subjects to take at school and it is important that you think about your future career while you make these choices. This way, you will ensure you are prepared for the tertiary study you need to reach your career goals.

This guide lists high school subjects that are recommended as helpful preparation for your chosen area of study at Otago Polytechnic.

### Leadership for Change

There is no list of specific subjects that we would recommend. It is more important that you are learning in areas you are passionate about and that might inform the change you want to make in the world. We are really interested to hear about any opportunities you have taken to step up as a leader and to make a difference. This might be in your school community, the community where you live, your iwi, your whānau or in your part-time work.

---

*English-rich subjects include: Classical Studies, English, Geography, History, History of Art, Media Studies

Approved subjects for degree entrance:

^ Only offered in Central Otago.

General information

Disclaimer: The information contained in this guide is aimed at giving you an overview of what we provide. While every effort is made to ensure accuracy at the time of production, Otago Polytechnic reserves the right to alter and amend information, and withdraw programmes without notice. All programmes, fees and costs are approximate and subject to change.

Terms and Conditions: It is important that you read these before applying because when you sign the declaration on our application form, it means that you are accepting them. For our full Terms and Conditions, and our policies, please visit op.ac.nz/terms-and-conditions

Targeted Review of Qualifications: A mandatory review of all certificate and diploma qualifications is currently being conducted by NZQA throughout New Zealand tertiary institutions. This is why we have marked some of our programmes with *subject to final approval. It means that there may be some changes to the related programme of study that we cannot reflect in this guide. For the most up-to-date information, please visit op.ac.nz

Fees: Fees shown in this guide are 2020 indicative domestic fees. Please note that additional fees may be required for external examinations, NZQA fees and/or additional material fees. Fees components for 2021 are indicative and may be subject to change once applicable Tertiary Education Commission rules and guidelines are released.

English requirements: If English is not your first language, you will need to meet the English entry requirements for the programme you wish to study. If you don’t hold the required IELTS, we offer several qualifications to help you improve your English Language skills (see page 18).

Workforce restrictions for children’s workforce: If you have a criminal conviction, and are studying (or considering studying) towards a qualification that will lead to a job in the state-funded sector working directly with children, you will need to check whether your conviction could prevent you from working in some roles in your chosen field.

For more information, visit op.ac.nz/terms-and-conditions

UE requirements change: Due to Covid-19, NZQA have introduced some changes to University Entrance requirements for students who studied and achieved NCEA Level 3 during 2020. Learners now need 12 credits in each of three NZQA approved subjects rather than the standard 14 credits, although they will still need to attain NCEA Level 3 and meet standard UE literacy and numeracy requirements. This applies to all of our degree programmes except the Bachelor of Midwifery (see page 23) and discussion of student’s science credits for the Bachelor of Nursing (page 22) is encouraged as a strong science background is needed for this programme.

Keeping it green
